						TOTAL	TOTAL

- COLUMN A Vehicle Serial Number.
- COLUMN B Seating Capacity.
- COLUMN C Year acquired by school district.
- COLUMN D This is the Purchase Price less the Trade-In value of a previously owned vehicle, if such trade-in value was deducted from the purchase price. If the vehicle was acquired over 7 years ago and the trade-in value applied to the purchase is not available, please note on the form.
- COLUMN E Sale Price, Trade-In Value, or Estimated Value, (if still owned by district.) Example: If a district used a vehicle for other than Special Education purposes during the current year and previously claimed depreciation reimbursement, the district must estimate the vehicle's current value and record it in Column E. This is not the Salvage Value.
- COLUMN F Years Used for Special Education. If the vehicle was used for special education before the date listed, you may extend the column to add the previous years.
- COLUMN G Amount of Depreciation Charged Against: 1) Special Education, 2) All Other Programs. The dollar amount of each year for special education and all other programs should equal the total depreciation claimed for the vehicle for that year. Total the depreciation at the bottom of Column G for both special education and all other programs.
